**REQUEST FOR INFORMATION
 (RFI)**

The Department of Public Works (DPW) is seeking marketing information on the latest camera surveillance technology to be installed at the upper Tumon Location. Interested vendors are requested to submit information on viable surveillance solutions with recommendations and options to include the camera units and proposed locations for optimum coverage of the entire DPW campus perimeter. Connectivity should be internet protocol (IP) based using the latest digital recording, storage and monitoring technologies.

The buildings on the current DPW campus proper will be the baseline for the surveillance coverage. There is no proposed major construction in the DPW Upper Tumon location within the near future or within the next five (5) years.

Please include narratives on technical support, maintenance, and repair options available, along with any relevant samples of service level agreements (SLA).

Mandatory meeting/conference is scheduled for **Friday, June 21, 2019 at 8:00 a.m.**, DPW Administrative Services Office, 2nd floor, upper Tumon. At this time, site maps will be distributed.

Point of contact is Ms. Maria G. Duarte, Management Analyst IV, at 646-3250 or email: maria.duarte@dpw.guam.gov.

Thank you for your interest.

VINCENT P. ARRIOLA
 Director

Date: 6/13/19
