All proposals will initially be classified as either “responsive” or “non-responsive”. Proposals may be found non-responsive any time during the evaluation process or contract negotiation if any of the required information is not provided or the proposal is not within the plans and specifications described and required in the RFP. If a proposal is found to be non-responsive, it will not be considered further.

XVII. DETERMINATION OF RESPONSIBILITY

The procurement officer will determine whether an Offeror has met the standards of responsibility. Such a determination may be made at any time during the evaluation process and through contract negotiation if information surfaces that would result in a determination of non-responsibility. If an Offeror is found non-responsible, the determination must be in writing, made a part of the procurement file and mailed to the affected Offeror.

XVIII. COMPLETENESS OF PROPOSALS

Selection and award will be based on the information contained in the Offeror’s proposal. Proposals may not include references to information located elsewhere, such as Internet

DPW may also choose to not evaluate, may deem non-responsive, and/or may disqualify from further consideration any proposals that do not follow this RFP format, are difficult to understand, are difficult to read, or are missing any requested information.

XX. DPW RIGHTS RESERVED

While DPW and the government of Guam have every intention to issue an award as a result of this RFP, issuance of the RFP in no way constitutes a commitment by DPW or the government of Guam to award and execute a contract. Upon a determination such actions would be in its best interest, DPW, in its sole discretion, reserves the right to:

2. Reject any or all proposals received in response to this RFP in the best interests of DPW or the government of Guam as provided in the Guam Procurement Regulations;
3. Waive any undesirable, inconsequential, or inconsistent provisions of this RFP which would not have significant impact on any proposal;
4. Waive any minor informalities in proposals received, or have them corrected by the Offeror in accordance with applicable regulations;
5. Not award if it is in the best interest of DPW or the government of Guam not to proceed with contract execution; or
6. If awarded, terminate any contract if DPW determines adequate funds are not available.

XXI. NONDISCLOSURE OF DATA

In accordance with Guam Procurement Regulations § 3114(h) (2), Offerors may identify trade secrets and other proprietary data contained in their proposals. If the Offeror selected for award has requested in writing the nondisclosure of trade secrets and other proprietary data so identified, DPW shall examine the request to determine its validity prior to entering into negotiations. If the parties do not agree as to the disclosure of data, DPW shall inform the Offeror in writing what portion of the proposal will be disclosed and that, unless the Offeror withdraws the proposal or protests under 5 G.C.A. Chapter 5 Article 9 the proposal will be so disclosed.

XXII. REJECTION OF PROPOSAL OFFER

The Department of Public Works shall have the prerogative to reject any proposals in whole or in part if a determination is made that such rejection is in DPW's interest or in

the best interest of the Territory of Guam as provided for in the regulations 2 GAR, Div. 4 §3115(e)(2).

XXIII. CANCELLATION OF RFP SOLICITATION

Prior to the date deadline set for proposal offers, this solicitation may be cancelled in whole or in part when the Director of Public Works or his designee determines in writing that there are cogent and compelling reasons to believe that the cancellation of the solicitation is in the Department of Public Works best interest, in accordance with the Procurement Rules and Regulations; as provided for in the regulations 5 GCA §5225; 2 GAR, Div. 4 §3115(c).

XXIV. DEBARMENT

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than ""SU"", ""UAVG"", ?SA?, or ?SC? denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio.

The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The ""SU"" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The ""SA"" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination.

The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

- 1) Has there been an initial decision in the matter? This can be:
 - a) a survey underlying a wage determination
 - b) an existing published wage determination
 - c) an initial WHD letter setting forth a position on a wage determination matter

- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

- 2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

- 3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
