KNOW ALL MEN BY THESE PRESENTS that _____

(Name of Contractor)

hereinafter called the Contractor and _____

(Name of Surety)

a corporation duly organized under the laws of the State of Guam and authorized to transact business in Guam, as Surety, are held and firmly bound unto the Government of Guam, as obligee, hereinafter called the Government for use and benefit of claimants as herein below defined, in the amount of _____ Dollars (\$_____) for the payment whereof the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, the Contractor has by written Agreement dated _____, 202__ entered into a Contract with the Government for the **“Removal and Replacement of Automatic Transfer Switch (ATS) at the Office of Technology, Project No. 510-5-1028-F-AGN”** in accordance with Drawings and Specifications prepared by the Department of Public Works, which Contract is by reference made a part hereof, and is hereinafter referred to as the Contract.

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION is such that, if the Contractor shall promptly and faithfully perform said Contract, and shall promptly make payment to all claimants as hereinafter defined for all labor and material used or reasonably required for use in the performance of the Contract, then this obligation shall be void; otherwise it shall remain in full force and effect, subject, however, to the following conditions:

- A. The Surety hereby waives notice of any alteration or extension of the time made by the Government provided the same is within the scope of the Contract.
- B. Whenever Contractor shall be and is declared in default by the Government to be in default under the Contract, the Government having performed territorial obligations thereunder, the Surety may promptly remedy the default or shall promptly:

1. Complete the Contract in accordance with its terms and conditions; or
 2. Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon determination by the Government and the Surety of the lowest responsive, responsible bidder, arrange for a Contract between such bidder and the Government, and make available as work progresses (even though there should be a default or a succession of defaults under the Contract or Contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less than balance of the Contract price, but not exceeding, including other costs and damages for which the Surety may be liable hereunder, the amount set forth in the first paragraph hereof. The term "balance of the Contract price", as used in this paragraph shall mean the total amount payable by the Government to Contractor under the Contract and any amendments thereto, less the amount properly paid by the Government to Contractor. No right of action shall accrue on this bond to or for the use of any person or corporation other than the Government or successors of the Government.
- C. A claimant is defined as one having a direct contract with the Contractor or with a subcontractor of the Contractor for labor, material, or both, used or reasonably required for use in the performance of the Contract, labor and material being construed to include that part of water, gas, power, light, heat, oil, gasoline, telephone service or rental of equipment directly applicable to the Contract.
- D. The above-named Contractor and Surety hereby jointly and severally agree with the Government that every claimant as herein defined, who has not been paid in full before the expiration of a period of forty five (45) days after the date on which the last of such claimant's work or labor was done or performed, or materials were furnished by such claimant, may sue on this bond for use of such claimant, prosecute the suit to final judgment for such sum or sums as may be justly due claimant, and have execution thereon. The Government shall not be liable for the payment of any costs or expenses of any such suit.

E. No suit or action shall be commenced hereunder by any claimant:

1. Unless claimant, other than one having a direct contract with the Contractor, shall have given written notice to any two of the following:

The Contractor, the Government, or the Surety above named, within forty five (45) days after such claimant did or performed the last of the work or labor, or furnished the last of the materials for which said claim is made, stating with substantial accuracy the amount claimed and the name of the party to whom the materials were furnished, or for whom the work or labor was done or performed. Such notice shall be personally served by mailing the same by registered mail or certified mail, postage prepaid, in an envelope addressed to the Contractor at any place the principal maintains an office or conducts its business.

2. After the expiration of one (1) year following the date on which the last of the labor was performed or material was supplied by the party bringing suit.
3. Other than in a court of competent jurisdiction in and for the Territory of Guam.

F. The amount of the payment bond shall be reduced by and to the extent of any payment or payments made in good faith hereunder, inclusive of the payment by Surety of mechanics' liens which may be filed of record against said improvement, whether or not claim for the amount of such lien be presented under and against this bond.

GENERAL CONDITIONS

I. DEFINITIONS

1. Owner

The term "Owner" as used herein means the Guam Office of Technology and the Governor of Guam, and/or his authorized representatives.

2. Contracting Officer

The term "Contracting Officer" as used herein means the Director of Public Works of the Government of Guam and shall include his authorized representatives.

3. Contractor

The term "Contractor" as used herein means the party or parties who or which shall have duly entered into a contract with the Government of Guam to perform the work herein contemplated or his or their authorized assignee.

4. Notice

The term "Notice" as used herein shall mean and include all written notice demands, instructions, claims, approvals and disapprovals required to obtain compliance with contract requirements. Any written notice by either party to the contract shall be sufficiently given if delivered to or at the last known business address of the person, firm, or corporation constituting the other party to the contract, or to his, their, or its duly authorized agent, representative, or officers, or when enclosed in a postage prepaid envelope addressed to such last known business address and deposited in a United States mail box. The Contractor must provide and maintain a post office address within the Territory of Guam and file the same with the Contracting Officer.

5. Forms Enclosed

The copies of the form of agreement, form of bid bond, form of performance and of payment bond enclosed herewith are incorporated in these General Conditions by reference and are made a part hereof to the same extent as though fully set forth herein.

II. CONSTRUCTION CONTRACT

1. Contract Documents

(a) The contract documents consist of the Agreement, the drawings, and specifications, including all addenda and alterations made in the documents prior to their execution.

(b) The contract documents shall be signed by the Owner and Contractor in as many original

counterparts as may be mutually agreed.

(c) Anything called for by one of the contract documents and not called for by the others shall be of like effect as if required or called for by all. In case of discrepancies between the contract documents, the specifications shall take precedence over the drawings, and the agreement shall take precedence over the drawings and specifications. Any discrepancies between the contract documents shall be called to the attention of the Contracting Officer before proceeding with work affected thereby.

(d) It will be conclusively presumed that the Contractor has read, examined and agreed to each and every term, conditions, provisions, covenant or agreement in the drawings, specifications, proposals, contract, and bond related to the work to be carried on, said documents being on file in the Contracts Administration Section office, Department of Public Works, Tumon, Guam.

2. Drawings

(a) The general character and scope of the work are illustrated by the drawings. Any additional detail drawings and other information deemed necessary by the Contracting Officer will be furnished to the Contractor when and as required.

(b) In case of differences between small scale and large scale drawings, the large-scale drawings shall govern. Figured dimensions on the drawings shall be considered primary compared with measurements obtained through scaling of drawings. The Contractor shall verify all dimensions, and if any be lacking, he shall call the attention thereto and be governed by the decision of the Contracting Officer.

(c) Where on any of the drawings a portion of the work is drawn out and the remainder is indicated in outline, the parts drawn out shall apply also to all other like portions of the work.

(d) Where the word “similar” occurs on the drawings, it shall be interpreted in its general sense and not as meaning identical.

(e) The approval of shop and setting drawings will be general and, except as otherwise provided in paragraph, shall not be construed (1) as permitting any departure from the contract requirements, (2) as relieving the Contractor of the responsibility for any error in details, dimensions and otherwise that may exist; (3) as approving departures from additional details or instructions previously furnished by the Contracting Officer.

3. Detail Drawings and Instructions

(a) The Contractor will be furnished additional instructions and detail drawings as may be necessary to carry out the work included in the contract. The additional drawings and instructions thus supplied to the Contractor shall be consistent with the contract documents and true developments thereof, and shall be so prepared that they can be reasonably interpreted as a part thereof. The Contractor shall carry out the work in accordance with the additional detail drawings and instructions.

(b) The Contracting Officer, at any time, without notice to the sureties may, by written order designated or indicated to be a change order, make any change in the work within the general scope of the contract, including but not limited to changes:

- (1) In the specifications (including drawings and designs);
- (2) In the method or manner of performance of the work;
- (3) In the Government-furnished facilities, equipment, materials, services for site; or
- (4) Directing acceleration in the performance of the work.

(c) Any other written order or an oral order (which terms as used in this paragraph (b) shall include direction, instructions, interpretations or determination from the Contracting Officer) which causes any such change, shall be treated as a change order under this clause, provided that the Contractor gives the Contracting Officer written notice stating the date, circumstances and source of the order and that the Contractor regards the order as a change order.

(d) Except as herein provided, no order, statement, or conduct of the Contracting Officer shall be treated as a change order under this clause or entitle the Contractor to an equitable adjustment hereunder.

(e) If any change under this clause causes an increase or decrease in the Contractor's cost of, or the time required for the performance of any part of the work under this contract, whether or not changed by any order, an equitable adjustment shall be made and the contract modified in writing accordingly, provided, however, that except for claims based on defective specifications no claim for any change under (b) above shall be allowed for any costs incurred more than 20 calendar days before the Contractor gives written notice as therein required. And provided further, that in the case of defective specifications for which the Owner is responsible, the equitable adjustment shall include any increased cost reasonably incurred by the Contractor in attempting to comply with such defective specifications.

(f) If the Contractor intends to assert a claim for an equitable adjustment under this clause, he must, within 30 calendar days after receipt of a written change order under (a) above or the furnishing of a written notice under (b) above, submit to the Contracting Officer a written statement setting forth the general nature and monetary extent of such claim, unless this period is extended by the Owner. The statement of claim hereunder may be included in the notice under (b) above.

(g) No claim by the Contractor for an equitable adjustment hereunder shall be allowed if asserted after final payment under this contract.

4. Shop Drawings

(a) The Contractor shall submit for the approval of the Contracting Officer, shop and setting drawings and schedules required by the specifications or that may be requested by the Contracting Officer and no work shall be fabricated by the Contractor, save at his own risk, until such approval has been given.

(b) Drawings and schedules shall be submitted in quadruplicate (unless otherwise specified)

accompanied by letter of transmittal which shall give a list of the numbers and dates of the drawings submitted. Drawings shall be complete in every respect and bound insets.

(c) The Contractor shall submit all drawings and schedules sufficiently in advance of construction requirements to allow ample time for checking, correcting, resubmitting and rechecking.

(d) The drawings submitted shall be marked with the name of the project, numbered consecutively and bear the stamp of approval of the Contractor as evidence that the drawings have been checked by the Contractor. Any drawings submitted without this stamp of approval will not be considered and will be returned to the Contractor for resubmission. If the shop drawings show variations from the requirements of the contract because of standard shop practice or other reasons, the Contractor shall make specific mention of such variation in his letter of transmittal so that if any variations are acceptable, suitable action may be taken for proper adjustment; otherwise, the Contractor will not be relieved of the responsibility for executing the work in accordance with the contract even though such shop drawings have been approved.

(e) If a drawing as submitted indicates a departure from the contract requirements which the Contracting Officer finds to be in the interest of the Owner and to be so minor as not to involve a change in the contract price or time for performance, he may approve the drawing.

5. Specifications and Drawings

(a) The Contractor shall keep on the work site a copy of the drawings and specifications including all authorized change orders, and shall at all times give the Owner, Contracting Officer and their representatives access thereto.

(b) All drawings and specifications and copies thereof furnished by the Contracting Officer are his property and shall not be used on other projects without his consent. Upon completion of this project all copies of the drawings and specifications except the signed contract sets are to be returned to the Contracting Officer upon his request.

6. Special Requirements

(a) Where special requirements, provisions or specifications or detailed specifications are attached hereto or are included in the proposal they shall be considered a part of these general conditions or specifications or detailed specifications as fully as if contained herein. Should any special provisions be in conflict with these general conditions or specifications or detailed specifications, said special requirements, provisions or detailed specifications shall govern.

(b) Person in charge of electrical wiring and installations shall be a licensed Master Electrician and/or registered electrical engineer in Guam.

7. Explanation to Bidders

No oral explanation in regard to the meaning of the drawings and specifications will be made and no oral instructions will be given before the award of the contract. Discrepancies, omissions, or doubts as to the meaning of drawings and specifications should be communicated in writing to the Contracting Officer for interpretation. Bidders should act promptly and allow sufficient time for a reply to reach them. Every interpretation made to a bidder will be in the form of an addendum to the contract documents which, if issued, will be sent as promptly as practicable to all persons to whom the drawings and specifications have been issued. All such addenda shall become part of the contract documents.

III. BIDS, BIDDER RESPONSIBILITIES

1. Conditions at Site or Building

(a) Bidders should visit the site and shall be responsible for having ascertained pertinent conditions such as location, accessibility, and general character of the site or building, the character and extent of existing work within or adjacent to the site, and any other work being performed thereon at the time of the submission of his bid. No extra compensation will be made by reason of any misunderstanding or error as regards to the site, the conditions thereof, accessibility or the amount of kind of work to be performed.

2. Submission of Bids

(a) The bidder is required to bid on all items called for in the Bid Form.

(b) Bids shall be submitted on the forms furnished or copies thereof, and shall be signed in ink. Erasures or other changes in a bid must be explained or noted over the signature of the bidder. Bids containing any conditions, omissions, unexplained erasures or alterations or items not called for in the proposal or irregularities of any kind may be rejected by the Owner as being incomplete.

(c) Each bid must give the full business address of the bidder and be signed by him with his usual signature. Bids by partnerships must furnish the full names of all partners and must be signed in the name of the partnership by one of the members of the partnership or by an authorized representative followed by the signature and designation of the person signing. The name of each person signing shall also be typed or printed below the signature. A bid by a person who affixes to his signature the word "president", (agent or other designation, without disclosing his principal), may be held to the bid of the individual signing. When requested by the Owner, satisfactory evidence of the authority of the officer signing in behalf of the corporation shall be furnished.

3. Bid Guarantee

Bids shall be accompanied by a bid guarantee of not less than fifteen percent (15%) of

the total bid if the bid is greater than \$100,000.00 for which award can be made. Bid guarantee may be bid bond (form enclosed), certified check or cashier's check. Certified check or cashier's check must be issued by a banking institution licensed to do business on Guam and shall be made payable to the Treasurer of Guam. Such bid bond or check shall be submitted with the understanding that it shall guarantee that the bidder will not withdraw his bid for a period of sixty (60) calendar days after the scheduled closing time for the receipt of bids; that if his bid is accepted, he will enter into a formal contract with the Owner in accordance with the form of agreement included as a part of the contract documents, and that the required performance and payment bond will be given; and that in the event of the withdrawal of said bid within said period, or the failure to enter into said contract and give said bond within fifteen (15) calendar days after he has received notice of the acceptance of his bid, the bidder shall be liable to the Owner for the full amount of the bid guarantee as representing the damage to the Owner on account of the default of the bidder in any particular hereof. The bid guarantee shall be returned to all except the three lowest bidders within three days after the formal opening of bids. The bid guarantee of the second and/or third low bidder shall be returned thirty (30) calendar days after the bid opening date upon request, provided that he has not been notified by the Owner of the acceptance of his bid prior to the date of such request. The bid guarantee of the lowest qualified bidder shall be returned within forty eight (48) hours after the Owner and the qualified bidder have executed the contract.

4. Withdrawal of Bids

Bids may be withdrawn on written or telegraphic request received from bidders prior to the time fixed for opening. Negligence on the part of the bidder in preparing the bid confers no right to the withdrawal of the bid after it has been opened.

5. Publicity of Bids

At the time fixed for the opening of bids, the contents of the bids will be made public for the information of bidders and others properly interested who may be present either in person or by representation.

6. Receipt and Opening of Bids

(a) Bids will be opened publicly at the time and place stated in the invitation for bids. The officer whose duty it is to open them will decide when the specified time has arrived and bids received thereafter will not be considered. No responsibility will be attached to any officer for the premature opening of a bid not properly addressed and identified.

(b) Telegraphic bids will not be considered, but modifications by telegraph of bids already submitted will be considered if received prior to time set for opening.

7. Rejection of Bids

The Owner reserves the right to reject any and all bids when such rejection is in the interest of the Owner and to reject the bid of a bidder who is not in a position to perform the contract.

8. Award of Contract

(a) The contract will be awarded as soon as possible to the lowest responsive and responsible bidder, provided it is in the interest of the Owner to accept his bid.

(b) The Owner reserves the right to waive any informality in bids received when such waiver is in the interest of the Owner. The Owner also reserves the right to accept any item in the bid and to reject any item in the bid unless otherwise specified by the Owner.

9. Performance and Payment Bond

The successful bidder must deliver to the Owner an executed performance and payment bond (forms enclosed) in an amount at least equal to one hundred percent (100%) of the accepted bid as security for the faithful performance of the contract and security for the payment of all persons performing labor and furnishing materials in connection with this contract. The sureties of all bonds shall be such surety company or companies as are approved by the Owner and as are authorized to transact business in Guam. The bonds must be approved by the Owner prior to execution of the formal contract.

10. Cancellation of Award

The Owner reserves the right to cancel the award of any contract at any time before the execution of same.

The Contracting Officer shall determine the amount, quality, acceptability, and fitness of the several kinds of work and materials which are to be paid or under this contract and shall decide all questions which may arise in relation to paid work and the construction thereof. The Contracting Officer's estimates and decisions shall be final and conclusive, except as herein otherwise expressly provided. In case any question shall arise between the parties hereto relative to said contract or specifications, the determination or decision of the Contracting Officer shall be a condition precedent to the right of the Contractor to receive any money or payment for work under this contract affected in any manner or to any extent by such question.

The diffusion or sections of the specifications are not intended to control the Contractor in dividing the work among subcontractors or to limit the work performed by any trade.

(b) The Contractor shall be as fully responsible to the Owner for the acts and omissions of subcontractors and of persons employed by them, as he is for the acts and omissions of persons directly employed by him.

19. Site of Contractor's Operations

20. Barricades

23. Signs

The Contractor shall erect a sign at the project site at his own expense. The location of sign shall be as directed by the Contracting Officer. Size of signs, lettering, and other pertinent data that should appear on the sign will be furnished by the Contracting Officer to the Contractor.

V. QUALITY OF WORK

1. Engineering and Layout

(a) The Contractor shall provide competent engineering services to execute the work in accordance with the contract requirements. He shall verify the figures shown on the survey and approach drawings before undertaking any construction work and shall be responsible for the accuracy of the finished work.

(b) The Owner has established or will establish such general reference points as will, in his judgment, enable the Contractor to proceed with the work. If the Contractor finds that any previously established reference points have been destroyed or displaced, he shall promptly notify the Owner.

(c) The Contractor shall protect and preserve the established bench marks and monuments and shall make no changes in location without the written approval of the Owner. Any of them which may be lost or destroyed or which require shifting because of necessary changes in grades or locations shall be subject to prior approval by the Owner, be replaced and accurately located by the Contractor.

2. Shop Drawings, Materials and Workmanship

Unless otherwise specified, all materials and equipment incorporated in the work under the contract shall be new. All workmanship shall be first class and by persons qualified in the respective trades.

Shop Drawings:

(a) The Contractor shall submit, for the approval of the Contracting Officer, shop and setting drawings and schedules required by the specifications or that may be requested by the Contracting Officer and no work shall be fabricated by the Contractor, save at his own risk, until such approval has been given.

(b) Drawings and schedules shall be submitted in quadruplicate (unless otherwise specified) accompanied by letter of transmittal which shall give a list of the numbers and dates of the drawings submitted. Drawings shall be complete in every respect and bound insets.

(c) The Contractor shall submit all drawings and schedules sufficiently in advance of construction requirements to allow ample time for checking, correcting, resubmitting and rechecking.

(d) The drawings submitted shall be marked with the name of the project, numbered consecutively and bear the stamp of approval of the Contractor as evidence that the drawings have been checked by the Contractor. Any drawings submitted without this stamp of approval will not be considered and will be returned to the Contractor for resubmission. If the shop drawings show variations from the requirements of the contract because of standard shop practice or other reasons, the Contractor shall make specific mention of such variation in his

letter of transmittal in order that if applicable, suitable action may be taken for proper adjustment. Otherwise, the Contractor will not be relieved of the responsibility for executing the work in accordance with the contract even though such shop drawings have been approved.

(e) If a drawing as submitted indicates a departure from the contract requirements which the Contracting Officer finds to be in the interest of the Owner and to be so minor as not to involve a change in the contract price or time for performance, he may approve the drawings.

(f) The approval of shop and setting drawings will be general and, except as otherwise provided in paragraph 2 (e), shall not be construed (1) as permitting any departure from the contract requirements; (2) as relieving the Contractor of the responsibility for any error in details, dimensions or otherwise that may exist; (3) as approving departures from additional details or instructions previously furnished by the Contracting Officer.

3. Standards

(a) Any material specified by reference to the number, symbol or title of a specific standard, such as a commercial standard, a Federal specification, a trade association standard or other similar standard, shall comply with the requirements in the latest revision thereto in effect on the date of Invitation for Bids, except as limited to type, class or grade or modified in such reference.

(b) The standard referred to, except as modified in the specifications, shall have full force and effect as though printed in the specifications. These standards are not furnished to bidders for the reason that the manufacturers and trades involved are assumed to be familiar with their requirements. The Contracting Officer will furnish, upon request, information as to how copies of such standards may be obtained.

(c) Reference in the specifications to any article, device, product, material, fixture, form, or type of construction by name, make or catalog number shall be interpreted as establishing a standard of quality and shall not be construed as limiting competition; and the Contractor, in such cases, may at his option use any article, device, product, material, fixture, form of type of construction which in the judgment of the Contracting Officer expressed in writing is equal to that specified.

4. Samples

(a) The Contractor shall furnish for the approval of the Contracting Officer any samples required by the specifications or that may be required by the Contracting Officer of any and all materials or equipment he proposes to use and shall prepay all shipping charges on the samples.

(b) No samples are to be submitted with bids.

(c) No materials or equipment of which samples are required to be submitted for approval shall be used on the work until such approval has been given by the Contracting Officer, save only at the Contractor's risk and expense.

(d) Each sample shall have a label indicating the material represented its place of origin and the names of the producer, the Contractor and the building or work for which the material is intended. Samples of finished materials shall be so marked as to indicate where the materials represented are required by the drawings or specifications.

(e) A letter in duplicate submitting each shipment of samples shall be mailed under separate cover by the Contractor and contain a list of the samples, the name of the building or work for which the materials are intended, and the brands of the materials and names of the manufacturers.

(f) The approval of any sample shall be only for characteristics or for the named in such approval and no other. No approval of a sample shall be taken in itself to change or modify any contract requirement. When a material has been approved, no additional sample of that material will be considered and no change in brand or make will be permitted. Approval of samples of hardware in good condition may be suitably marked for identification and used in the work.

(g) Failure of any material to pass the specified tests will be sufficient cause for refusal to consider under this contract any further samples of the same brand or make of that material.

(h) Test samples as the Contracting Officer may deem necessary will be procured from the various materials or equipment delivered by the Contractor for use in the work. If any of these test samples fail to meet the specifications requirement, any previous approvals will be withdrawn and such materials or equipment shall be subject to removal and replacement by the Contractor with materials or equipment meeting the specification requirements, or at the discretion of the Owner, the defective materials and equipment may be permitted to remain in place subject to a proper adjustment of the contract price. The cost of the tests will be borne by the Owner except where laboratory tests as hereinafter specified are required by the specifications.

5. Laboratory Tests

(a) Any specified laboratory tests of materials and finished articles to be incorporated in the work shall be made by bureaus, laboratories or agencies approved by the Contracting Officer, and the reports of such tests shall be submitted to the Contracting Officer. The cost of the testing shall be paid for by the Contractor.

6. Methods

The Contractor shall use proper and efficient methods and appliances for the performance of all the operations connected with work embraced under these specifications, drawings and contract to secure a rate of progress which will secure completion of the work within the time specified. If, at any time before commencement of work, or during the progress thereof, such methods, equipment or appliances are inefficient or inappropriate for securing said quality of work or said rate of progress, the Contracting Officer may order the Contractor to increase their efficiency or to improve their character, and the Contractor must conform to such order.

The failure of the Contracting Officer to demand such increases of efficiency or improvement shall not relieve the Contractor or his sureties from the obligations to secure such quality of work and said rate of progress and the completion of the work as required herein.

7. Labor and Materials

The Contractor shall furnish all labor, materials and equipment for the execution of the work according to the drawings, specifications and contract, and where no specifications are contained therein for whatever may be necessary, shall do all that may be termed ordinary, customary or essential to a job to be well and reliably completed. This includes concealment of all pipes and other rough items of installation if not clearly so shown on the drawings in a manner acceptable to the Contracting Officer. Structural safety shall not be impaired by such concealment. Work not particularly detailed, marked or specified shall be of equal quality as similar parts that are detailed, marked or specified. All material finished for and used in the job shall be of kind and grade specified and where not specifically called for at least of customary standard grade. All work shall be executed in accordance with their trades. Full structural safety is essential and the Contractor guarantees to accomplish same for the entire work.

8. Guarantee of Work

(a) Except as otherwise specified all work shall be guaranteed by the Contractor against defects resulting from the use of inferior materials, equipment, or workmanship for one (1) year from the final completion of the contract or from full occupancy of the building by the Owner, whichever is earlier.

(b) If within any guarantee period, repairs or changes are required in connection with guaranteed work which, in the opinion of the Contracting Officer, is rendered necessary as the result of the use of materials, equipment or workmanship which are inferior, defective or not in accordance with the terms of the contract, the Contractor shall promptly upon receipt of notice from the Owner and without expense to the Owner:

(1) Place in satisfactory condition in every particular all of such guaranteed work and correct all defects therein; and

(2) Make good all damages to the building or site or equipment or contents thereof which, in the opinion of the Contracting Officer, are the result of the use of materials, equipment or workmanship which are inferior, defective or not in accordance with the **terms of the contract**.

(c) In any case wherein fulfilling the requirements of the contract or of any guarantee embraced in or required thereby the Contractor disturbs any work guaranteed under another contract, he shall restore such disturbed work to a condition satisfactory to the Contracting Officer and guarantee such restored work to the same extent as it was guaranteed under such other contract.

(d) If the Contractor, after notice, fails to proceed promptly to comply with the terms of the guarantee, the Owner may have the defects corrected and the Contractor and his surety shall

be liable for all expense incurred.

(e) All special guarantees applicable to definite parts of the work shall be stipulated in the specifications or other papers forming a part of the contract and shall be subject to the terms of this paragraph during the first year of the life of such special guarantee.

9. Defective Work

No work or material which may be defective in construction or quality or deficient in any of the requirements of the drawings and specifications will be considered accepted as a consequence of the failure of the Contracting Officer or the inspectors to discover or to point out said defects or deficiencies during the construction; nor will the presence of inspectors on the work relieve the Contractor from the responsibility of securing the quality and progress of work as required by these specifications.

Any defective work that may be discovered before the completion of the work or within such time as required by the bond shall be replaced by work and materials that shall conform to the spirit and intent of the drawings, specifications and contract.

The fact that the Contracting Officer or his representatives may have overlooked defective work shall not constitute the acceptance of work. NO PAYMENT WHETHER PARTIAL OR FINAL SHALL BE CONSTRUED TO BE AN ACCEPTANCE OF DEFECTIVE WORK OR IMPROPER MATERIALS.

10. Stop Work Order: 2GAR, Div. 4, § 6101 (4)(c)

The Procurement Officer may, by written order to the contractor, at any time, and without notice to any surety, require the contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period not exceeding 90 days after the order is delivered to the contractor, unless the parties agree to any further period. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, the contractor shall forthwith comply with its terms and take all reasonable steps to minimize the occurrence of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, or within any further period to which the parties shall have agreed, the Procurement Officer shall either: (i) cancel the stop work order; or (ii) terminate the work covered by such order as provided in the "Termination for Default Clause" or the "Termination for Convenience Clause" of this contract.

VI. INSPECTION OF WORK

1. Access to the Work

The Contracting Officer and his representatives shall have access at all times to the work for inspection whatever it is in preparation or progress and the Contractor shall provide proper facilities for such access and inspection.

2. Inspectors

Inspectors may be placed by the Contracting Officer to supervise each and every subdivision of the work or any parts or process thereof. The Contracting Officer and the inspectors shall have free access to all parts of the work at all times and shall be given every facility, information and means of thoroughly inspecting the work done and the materials used or to be used.

The inspectors shall at all times be free to perform their duties and any intimidation of any inspector by the Contractor or the employees thereof shall be sufficient reason, if the Owner shall so decide, to annul the contract.

3. As-Built Drawings

A contract set of drawings shall be maintained at the site with all changes or deviations from the original drawings neatly marked thereon in brightly contrasting color. This shall be a separate set of drawings not used for construction purposes which shall be kept up to date as the job progresses and shall be made available for inspection by the Contracting Officer at all times. Upon completion of the contract this set of drawings shall be delivered to the Contracting Officer.

4. Inspection

(a) All materials and workmanship (if not otherwise designated by the specifications) shall be subject to inspection, examination and testing by the Contracting Officer at any and all times during manufacture and/or construction and at any and all places where such manufacture and/or construction are carried on. The Contracting Officer shall have the right to reject defective material and workmanship or require its correction. Rejected workmanship shall be satisfactorily corrected, and rejected materials shall be satisfactorily replaced with proper materials and the Contractor shall promptly segregate and remove the rejected materials from the premises. If the Contractor fails to proceed at once with the replacement of rejected materials and/or the correction of defective workmanship, the Owner may, by contract or otherwise, replace such materials and/or correct such workmanship and charge the cost to the Contractor, or may terminate the right of the Contractor to proceed as provided in paragraph 5 of Section VII, Time for Performance, the Contractor and surety being liable for any damage to the same extent as provided in said paragraph 16 for termination thereunder.

(b) The Contractor shall furnish promptly, without additional charge, all reasonable facilities, labor and materials necessary for the safe and convenient inspection and tests that may be required by the Contracting Officer. All inspections and tests shall be performed in such manner as not to unnecessarily delay the work. Special, full-size and performance tests shall be as described in the specifications. The Contractor shall be charged with any cost of inspection when material and workmanship are not ready at the time inspection is requested by the Contractor.

(c) Should it be considered necessary or advisable by the Contracting Officer at any time

before final acceptance of the entire work to make an examination of work already completed by removing or tearing out same, the Contractor shall on request promptly furnish all necessary facilities, labor and materials. If such work is found to be defective in any material respect due to the fault of the Contractor or his subcontractors, he shall defray all the expenses of such examination and of satisfactory reconstruction. If, however, such work is found to meet the requirements involved in the examination and replacement, the cost of conducting the test plus 15 percent shall be allowed the Contractor and he shall in addition, if completion of the work has been delayed thereby, be granted a suitable extension of time on account of the additional work involved.

5. Final Inspection

When the work is substantially completed the Contractor shall notify the Owner, in writing, that the work will be ready for final inspection and test on a definite date which shall be stated in such notice. The notice shall be given at least ten (10) calendar days in advance of said date and shall be forwarded through the Contracting Officer who will attach his endorsement as to whether or not he concurs in the Contractor's statement that the work will be ready for final inspection or tests on the date given but such endorsement shall not relieve the Contractor of this responsibility in the matter.

VII. TIME FOR PERFORMANCE

1. Prosecution of the Work

The Contractor agrees that said work shall be prosecuted regularly, diligently and without interruption at such rate of progress as will insure full completion thereof within the time specified. It is expressly understood and agreed by and between the Contractor and the Owner that the time for completion of the same takes into consideration the average climatic range and usual industrial conditions prevailing in the locality.

2. Suspension of Work

(1) Suspension for Convenience. - The Director of Public Works or the head of a Purchasing Agency may order the contractor in writing to suspend, delay or interrupt all or any part of the work for such period of the time as the Director of Public Works or the Head of a Purchasing Agency may determine to be appropriate for the convenience of the territory.

(2) Adjustment of Cost - If the performance of all or any parts of the work is, for an unreasonable period of time, suspended, delayed, or interrupted by an act of the Director of Public Works or the Head of a Purchasing Agency in the administration of this contract, or by the failure of the Director of Public Works or the Head of a Purchasing Agency to act within the time specified in the contract (or if no time specified, within reasonable time), an adjustment shall be made for any increase in the cost of performance of this contract necessarily caused by such unreasonable suspension, delay, or interrupted and the contract modified in writing accordingly. However, no adjustment shall be made under this clause for any suspension, delay or interruption to the extent:

(1) that performance would have been so suspended, delayed, or interrupted by any other cause, including the fault or negligence of the contractor; or

(2) For which an adjustment is provided for or excluded under any other provision of this contract.

(3) Time Restriction on Claim - No claim under this clause shall be allowed:

1) For any costs incurred more than twenty (20) days before the contractor shall have notified the Director of Public Works or the Head of a Purchasing Agency in writing of the act or failure to act involved (but this requirement shall not apply as to a claim resulting from suspension order); and

2) unless the claim is asserted in writing as soon as practicable after the termination of such suspension, delay, interruption, but no later than the date of final payment under the contract.

(4) Adjustments of Price - Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

3. TERMINATION FOR DEFAULTS, 2 GAR, Div. 4 § 6101 (8) (a) thru (f);

(a) Default. If the contractor refuses or fails to perform any of the provisions of this contract with such diligence as will ensure its completion within the time specified in this contract, or any extension thereof, otherwise fails to timely satisfy the contract provisions, or commits any other substantial breach of this contract, the Procurement Officer may notify the contractor in writing of the delay or non-performance and if not cured in ten days or any longer time specified in writing by the Procurement Officer, such officer may terminate the contractor's right to proceed with the contract or such part of the contract as to which there has been delay or a failure to properly perform. In the event of termination in whole or in part the Procurement Officer may procure similar supplies or services in a manner and upon terms deemed appropriate by the Procurement Officer. The contractor shall continue performance of the contract to the extent it is not terminated and shall be liable for excess costs incurred in procuring similar goods or services.

(b) Contractor's Duties. Notwithstanding termination of the contract and subject to any directions from the Procurement Officer, the contractor shall take timely, reasonable, and necessary action to protect and preserve property in the possession of the contractor in which the territory has an interest.

(c) Compensation. Payment for completed supplies delivered and accepted by the territory shall be at the contract price. Payment for the protection and preservation of property shall be in an amount agreed upon by the contractor and the Procurement Officer; if the parties fail to agree, the Procurement Officer shall set an amount subject to the contractor's rights under Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations. The territory may withhold from amounts due the contractor such sums as the Procurement Officer deems to be necessary to protect the territory against loss because of outstanding

liens or claims of former lien holders and to reimburse the territory for the excess costs incurred in procuring similar goods and services.

- (d) Excuse for Nonperformance or Delayed Performance. Except with respect to defaults of subcontractors, the contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by the contractor to make progress in the prosecution of the work hereunder which endangers such performance) if the contractor has notified the Procurement Officer within 15 days after the cause of the delay and the failure arises out of causes such as: acts of God; acts of the public enemy; acts of the territory and any other governmental entity in its sovereign or contractual capacity; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; or unusually severe weather. If the failure to perform is caused by the failure of a subcontractor to perform or to make progress, and if such failure arises out of causes similar to those set forth above, the contractor shall not be deemed to be in default, unless the supplies or services to be furnished by the subcontractor were reasonably obtainable from other sources in sufficient time to permit the contractor to meet the contract requirements. Upon request of the contractor, the Procurement Officer shall ascertain the facts and extent of such failure, and, if such officer determines that any failure to perform was occasioned by any one or more of the excusable causes, and that, but for the excusable cause, the contractor's progress and performance would have met the terms of the contract, the delivery schedule shall be revised accordingly, subject to the rights of the territory under the clause entitled (in fixed-price contracts, "Termination" for Convenience in cost-reimbursement contracts) "Termination". (As used in this Paragraph of this clause the term "subcontractor" means subcontractor at any tier.
- (e) Erroneous Termination for Default. If, after notice of termination of the contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of Paragraph (4) (Excuse for Nonperformance or Delayed Performance) of this clause, the rights and obligations of the parties shall, if the contract contains a clause providing for termination for convenience of the territory, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstances, this contract does not contain a clause providing for termination for convenience of the territory, the contract shall be adjusted to compensate for such termination and the contract modified accordingly subject to the contractor's rights under Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations.
- (f) Additional Rights and Remedies. The rights and remedies provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

4. TERMINATION FOR CONVENIENCE (2 GAR, Div.4 § 6101 (10) (a) thru (d)

- (a) Termination - The Procurement Officer may, when the interest of the territory so require, terminate this contract in whole or in part, for the convenience of the territory. The Procurement Officer shall give written notice of the termination to the contractor specifying the part of the contract terminated becomes effective.

(b) Contractor's Obligations - The contractor shall incur no further obligations in connection with the terminated work and on the date set in the notice of termination the contractor will stop work to the extent specified. The contractor shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The contractor shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Procurement Officer may direct the contractor to assign the contractor's right, title, and interest under terminated orders or subcontracts to the territory. The contractor must still complete the work not terminated by the notice of termination and may incur obligations as necessary to do so.

(c) Right to Construction and Supplies - The Procurement Officer may require the contractor to transfer title and deliver to the territory in the manner and to the extent directed by the Procurement Officer:

- 1) any completed construction and supplies; and
- 2) such partially completed construction, supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawing, information, and contract rights (hereinafter called construction material) as the contractor has specifically produced or specially acquired for the performance of the terminated part of the contract.

The contractor shall protect and preserve property in the possession of the contractor in which the territory has an interest. If the Procurement Officer does not exercise this right, the contractor shall use best efforts to sell such construction, supplies, and construction materials in accordance with the standards of 14 GCA §2706 (UCC). (See end of Subsection 6101 (10) (d) for code quotation.) This in no way implies that the territory has breached the contract by exercise of the Termination for Convenience Clause.

(d) Compensation

(1) The contractor shall submit a termination claim specifying the amounts due because of the termination for convenience together with cost or pricing data, submitted to the extent required by section 3118 (Cost or Pricing Data) of the Guam Procurement Regulations, bearing of such claim. If the contractor fails to file a termination claim within one year from the effective date of termination, the Procurement Officer may pay the contractor, if at all, an amount set in accordance with subparagraph (c) of this Paragraph.

(2) The Procurement Officer and the contractor may agree to a settlement provided the contractor has filed a termination claim supported by cost or pricing data submitted as required by §3118 (Cost or Pricing Data) of the Guam Procurement Regulations and that the settlement does not exceed the total contract price plus settlement costs reduced by payments previously made by the territory, the proceeds of any sales of construction materials under Paragraph (3) of this clause, and the contract price of the work not terminated.

(3) Absent complete agreement under Subparagraph (b) of this paragraph, the Procurement Officer shall pay the contractor the following amounts, provided payments under Subparagraph (b) shall not duplicate payments under this Subparagraph:

- i. contract prices for supplies or services accepted under the contract;

(3) The Contractor shall refuse or fail, after Notice of Warning from the Contracting Officer, to supply enough properly skilled workmen or proper materials; or

(5) The Contractor shall fail to make payments as specified to persons supplying labor or materials for the work, or;

(b) Non-Performance or Delay, Damages for Delay, Time Extensions

(1) Default. If the Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will assure its completion within the time specified in this contract, or any extension thereof fails to complete said work within such time, or commits any other substantial breach of this contract, and further fails within fourteen (14) days after receipt of written notice from the Procurement Officer to commence and continue correction

of such refusal or failure with diligence and promptness, the Procurement Officer may, by written notice to the contractor, declare the contractor in breach and terminate the contractor's right to proceed with the work or such part of the work as to which there has been delay. In such event the territory may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of, and utilize in completing the work, such materials, appliances, and plant as may be on the site of the work and necessary therefor. Whether or not the contractor's right to proceed with the work is terminated, the contractor and the contractor's sureties shall be liable for any damage to the territory resulting from the contractor's refusal or failure to complete the work within the specified time.

(2) Liquidated Damages Upon Termination. If fixed and agreed liquidated damages are provided in the contract, and if the territory so terminates the contractor's right to proceed, the resulting damage will consist of such reasonable time as may be required for final completion of the work.

(3) Liquidated Damages in Absence of Termination. If fixed and agreed liquidated damages are provided in the contract, and if the territory does not terminate the contractor's right to proceed, the resulting damage will consist of such liquidated damages until the work is completed or accepted.

(4) Time Extension. The contractor's right to proceed shall not be so terminated nor the contractor charged with resulting damage if:

(a) The delay in the completion of the work arises from causes such as; acts of God; acts of the public enemy; acts of the territory, and any other territorial entity in either a sovereign or contractual capacity; acts of another contractor in the performance of a contract with the territory; fires; floods; epidemics; quarantine restrictions; strikes or other labor disputes; freight embargoes; unusually severe weather; delays of subcontractors due to cause similar to those set forth above; or shortage of materials; provided, however, that no extension of time will be granted for a delay caused by a shortage of materials, unless the contractor furnished to the Procurement Officer proof that the contractor has diligently made every effort to obtain such materials from all known sources within reasonable reach of the work, and further proof that the inability to obtain such materials when originally planned did in fact cause a delay in final completion of the entire work which could not be compensated for by revising the sequence of the contractor's operations' and

(b) The contractor, within ten days from the beginning of any such delay (unless the Procurement Officer grants a further period of time before the date of final payment under the contract), notifies the Procurement Office in writing of the causes of delay. The Procurement Officer shall ascertain the facts and the extent of the delay and extend the time for completing the work when, in the judgment of the Procurement Officer, the findings of fact justify such an extension.

(5) Erroneous Termination for Default. If, after notice of termination of the contractor's right to proceed under the provisions of this clause, it is determined for any reason that the contractor was not in default under the provisions of this clause, or that the delay was excusable under the provisions of this clause, the right and obligations of the parties shall, if the contract

contains a clause providing for termination for convenience of the territory, be the same as if the notice of termination had been issued pursuant to such clause. If, in the foregoing circumstance, this contract does not contain a clause providing for termination for convenience of the territory, the contract shall be adjusted to compensate for such termination and the contract modifies accordingly.

(6) Additional Rights and Remedies. The rights and remedies of the territory provided in this clause are in addition to any other rights and remedies provided by law or under this contract.

No materials or supplies for the work shall be purchased by the Contractor or by any subcontractor subject to any chattel mortgage or under a conditional sale or other agreement by which an interest is retained by the seller. The Contractor warrants that he has good title to all materials and supplies for which he accepts partial payments.

2. Claims

The Contractor agrees whenever required to do so by the Owner to furnish satisfactory evidence that all persons, firms or corporations who have done work or supplied materials under these specifications have been paid or have been duly notified of the completion of the work and have been secured to their satisfaction before the said Contractor shall be entitled to final payment.

In case such evidence is not furnished or in case any claim is filed with the Owner or any suit or action is instituted against the Owner as defendant or garnishes or against the Contractor in connection with the work performed or to be performed under the drawings, specifications or contract, the Owner may retain from the money due or to become due to the Contractor such sum or sums as in the judgment of the Contracting Officer will fully protect the Owner from loss, charge or expense by reason of such claim, suit or action. The Owner without prejudice to any other and further rights, may make any and all deductions for any loss, charge or expense sustained by it to which it would be entitled under the contract specifications or bond, or otherwise before paying over the balance of the sum or sums retained as aforesaid, if any, to the Contractor, his creditor, or any successful claimant against the Contractor.

No payment made or retained under this contract shall be held to relieve the Contractor and/or his sureties from his and/or their obligations under this bond to hold harmless and indemnify the Owner or its agents from any and all loss, charge or expense by reason of any unpaid claim whatsoever.

3. Claims Based on The Director of Public Works or the Head of a Purchasing Agency's Actions or Omissions

(1) The contractor shall have given written notice to the Director of Public Works, the head of the Purchasing Agency, or designee of such officer:

(a) Prior to the commencement of the work involved, if at that time the contractor knows of the occurrence of such action or omission;

(b) Within 30 days after the contractor knows of the occurrence of such action or omission, if the contractor did not have such knowledge prior to the commencement of the work; or

(c) Within such further time as may be allowed by the Procurement Officer in writing.

This notice shall state that the contractor regards the act or omission as a reason which may entitle the contractor to additional compensation, damages, or an extension of time. The Procurement Officer or designee of such officer, upon receipt of such notice, may rescind such action, remedy such omission, or take such other steps as may be deemed advisable in the discretion of the Procurement Officer or designee of such officer.

(1) The notice required by Subparagraph (a) of this Paragraph describes as clearly as practicable at the time reasons why the contractor believes that additional compensation, damages, or an extension of time may be remedies to which the contractor is entitled; and

(iii) **Adjustments of Price.** Any adjustment in the contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this Contract.

These values will be used for determining partial payments and as a basis for changes in work as outlined in the General Conditions.

The successful bidder will be required to comply with the applicable sections of Titles 11 and 21 of the Guam Code Annotated, as regards to licenses and taxes. 11. Differing Site Conditions

A. **Notice:** The contractor shall promptly, and before such conditions are disturbed, notify the Director of Public Works or the Head of a Purchasing Agency of:

a. Subsurface or latent physical conditions at the site differing materially from those indicated in this contract; or

b. Unknown physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this contract.

B. **Adjustment of Price or Time for Performance:** After receipt of such notice, the Director of Public Works or the Head of a Purchasing Agency shall promptly investigate the site, and if it is found that such conditions do materially so differ and cause an increase in the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed as a result of such conditions, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract.

C. **Timeliness of Claim:** No claim of the contractor under this clause shall be allowed unless the contractor has given the notice required in this clause; provided, however, that the time prescribed therefor may be extended by the Director of Public Works or the Head of a Purchasing Agency in writing.

D. **No Claim After Final Payment** - No claim by the contractor for an adjustment thereunder shall be allowed if asserted after final payment under this contract.

E. **Knowledge** - nothing contained in this clause shall be grounds for an adjustment in compensation if the contractor had actual knowledge of the existence of such conditions prior to the submission of bids.

(a) By agreement on fixed price adjustment before commencement of the pertinent performance or as soon thereafter as practicable;

2. in such other manner as the parties may mutually agree; or

3. in the absence of an agreement between parties, by a unilateral determination by the Director of Public Works or the Head of a Purchasing Agency of any cost attributable to the event or situation covered by the clause, plus appropriate profit or fee, all as computed by the Director of Public Works or the Head of a Purchasing Agency in accordance with generally accepted accounting principles with applicable sections under Chapter 7 (Cost Principles) of the Guam Procurement Regulations and subject to the provisions of Chapter 9 (Legal and Contractual Remedies) of the Guam Procurement Regulations. 2GAR, Div. 4 Chapter 9.

(a) Adjustments of Price or Time for Performance. If any such change order increases or decreases the contractor's cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, an adjustment shall be made and the contract modified in writing accordingly. Any adjustment in contract price made pursuant to this clause shall be determined in accordance with the Price Adjustment Clause of this contract. Failure of the parties to agree to an adjustment shall not excuse a contractor from proceeding with the contract as changed, provided that the territory promptly and duly make such provisional adjustments in payments or time for performance as may be reasonable. By proceeding with the work, the contractor shall not be deemed to have prejudiced any claim for

additional compensation, or an extension of time for completion. (c) Written Certification. The contractor shall not perform any change order in excess of \$5,000 unless it bears, or the contractor has separately received, a written certification, signed by appropriate fiscal officer or other responsible official that funds are available therefor; and, if acting in good faith, the contractor may rely upon the validity of such certification. (d) Time Period for Claim. Within 30 days after receipt of a written change order under Paragraph (1) (Change Order) of this clause, unless such period is extended by the Director of Public Works or the head of the Purchasing Agency in writing, the contractor shall file notice of intent to assert a claim for an adjustment. Later notification shall not bar the contractor's claim unless the territory is prejudiced by the delay in notification. (e) Claim Barred After Final Payment. No claim by the contractor for an adjustment hereunder shall be allowed if notice is not given prior to final payment under this contract. (f) Claims Not Barred. In the absence of such a change order, nothing in this clause shall restrict the contractor's right to pursue a claim arising under the contract, if pursued in accordance with the clause entitled "Claims Based on a Director of Public Work's or the Head of a Purchasing Agency's Actions or Omissions Clause" or for breach of contract.

The actual cost of:

- I. Labor, including foreman
- II. Materials entering permanently into the work
- III. Equipment rental cost during time used on extra work
- IV. Power and consumable supplies
- V. Insurance

(b) The Contractor shall, when required by the Owner, furnish to the Owner an itemized breakdown of the quantities and prices used in computing the value of any change that might be ordered.

(c) In figuring changes, instructions for measurement of quantities set forth in the specifications shall be followed.

(d) If any part of the work as installed is at variance with the contract requirements, the Owner may, if he finds it to be in his interest, allow all or any part of such work to remain in place subject to a proper adjustment in the contract price.

14. Payment to Contractor

(a) Unless otherwise provided in the specifications, the Owner will make partial payments to the Contractor after receipt and approval of the request for partial payment covering the work performed during the proceeding calendar month. No payments for installed materials on the site will be made unless such request is accompanied by a receipt or certification showing that the Contractor has made payment in full for such work done. In preparing such estimates,

preparatory work done shall not be considered for payment. Materials delivered to site shall be considered for payment subject to the following conditions:

(1) The material shall be kept in a safe and enclosed warehouse or area located on site with restricted access.

(2) The receipt and issue of material must be controlled by a stock card kept in the warehouse.

(3) Insurance coverage required under Section 11, Chapter IV of the General Conditions shall include insurance of such material and shall include theft insurance.

(4) Request for payment must be accompanied with certification and receipts indicating the cost of material and showing that Contractor has made full payment for such material.

(b) In making such partial payments there shall be retained ten percent (10%) of the estimated amount until final completion and acceptance of all work covered by the contract. However, if the Contracting Officer, at any time after 50 percent of the work has been completed, finds that satisfactory progress is being made, he may authorize payment in full of each progress payment for work performed beyond the 50 percent stage of completion. Also, whenever the work is substantially complete, the Contracting Officer, if he considers the amount retained to be in excess of the amount adequate for the protection of the Government, at his discretion, may release to the Contractor all or a portion of such excess amount.

(c) All materials and work covered by partial payments made shall thereupon become the sole property of the Owner, but this provision shall not be construed as relieving the Contractor from the sole responsibility for all materials and work upon which payment have been made, or the restoration of any damaged work or as a waiver of the right of the Owner to require the fulfillment of all of the terms of the contract.

(d) Release of Claims - Neither the final payment or any part of the retained percentage shall become due until the Contractor shall deliver to the Owner through the Contracting Officer a complete release of all claims against the Owner arising under and by virtue of this contract, including claims of all subcontractors and suppliers of either materials or labor, other than such claims, if any, as may be specifically excepted by the Contractor.

(e) Certificate of Completion - Upon completion and acceptance of all work whatsoever required and the release of all claims against the Owner as specified, the Contracting Officer shall file a written certificate with the Owner and with the Contractor as to the entire amount of work performed and compensation earned by the Contractor, including extra work and compensation therefore.

(f) Final Payment - Within thirty (30) calendar days after the filing of such certificate of completion, the Owner shall pay to the Contractor the amount therein stated less all prior payments and advances whatsoever to or for the amount of the contract. All prior estimates and payments including those relating to extra work shall be subject to correction by this payment which is throughout this contract called Final Payment.

(g) Acceptance of Final Payment Constitutes Release - The acceptance by the Contractor of the final payment shall be and shall operate as a release to the Owner of all claims and of all liability to the Contractor for all things done or furnished in connection with this work and for every act and neglect of the Owner and others relating to or arising out of this work, excepting the Contractor's claims for interest upon the final payments if this payment be improperly delayed. No payments, however, final or otherwise shall operate to release the Contractor or his sureties from any obligations under this contract or the performance and payment bonds.

IX. MISCELLANEOUS

1. Prohibited Interests

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage

determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than "SU", "UAVG", "?SA?", or "?SC?" denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The "SU" identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

?SU? wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The "SA" identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the "SA" identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7).

Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.
